Portex Minerals Inc. Announces Bridge Financing

January 15, 2014, Toronto, Ontario; Portex Minerals Inc. ("Portex" or the "Company") (CNSX: PAX) is pleased to announce that it has secured a bridge financing in the amount of \$75,000 to provide working capital prior to the completion of the previously announced financing transaction with Global resources Investment Limited (**GRIL**) and the expected sale of Global Resources Investment Trust, Plc. (**GRIT** or the **TRUST**) shares to generate working capital.

The principal amount of the loan is \$75,000 and will bear interest at the rate of 12% per annum payable at maturity. The loan will mature on June 30, 2014 and may be repaid in all or in part at any time prior to maturity. The loan is secured by a pledge of the shares of the holding companies which indirectly hold the exploration licences in Spain and Portugal.

Portex has agreed to acquire 1,443,348 units of GRIL at a price of £1 per unit. GRIL is conditionally approved for listing on the London Stock Exchange. GRIL will be registered as a public company and constituted as an investment trust with the name Global Resources Investment Trust, Plc. The Trust has been established to exploit investment opportunities in the junior mining and natural resources sectors worldwide. Portex will purchase the GRIT units in exchange for 40,000,000 newly issued Portex common shares at an issue price of \$0.06 per share. The Portex shares issued will be subject to the private placement four month hold period. Upon completion of this transaction and the mineral exploration licence acquisitions described below, Portex will have 204,984,300 common shares outstanding, with GRIT holding a 19.5% interest. The purchase of the Trust units is conditional upon GRIT closing its initial financing and becoming listed on the London Stock Exchange. GRIT expects to be listed on the London Stock Exchange by the end of January 2014.

As part of this transaction, Portex will arrange to sell GRIT units from time to time through the facilities of the London Stock Exchange in order to generate cash proceeds net of normal course trading commissions. The proceeds received from the sale of the GRIT units will depend upon market conditions at the time of sale. The cash proceeds from the sale of the units will be used to repay the bridge loan, to advance Portex assets in Spain, Portugal, Northern Ireland and Ireland, for working capital and general corporate purposes. A 6% advisory fee is payable by Portex in cash or a combination of Portex shares and GRIT units.
